## **INTRODUCTION**

This website is all about 5-star hotel which is called as “Moonlight” Hotel and Resort. The main purpose of this a hotel management platform that provides information about all the hotel and its facilities. It’s surround by the restaurant, bars, function halls, Spa, and all eye-catching sections. And it’s including other Hotels which are associate with the Moonlight Hotel and Resort. All 150 rooms represent the popular modern yet elegant style of international hotels. Also, through this hotel management platform, customers can make their reservation through online and give their feedback about the hotel.

This website includes 8 main web pages. They are Home, Accommodation, Dining, Facilities, Function, About us, Contact us, Gallery.

This website uses HTML, JavaScript, CSS and PHP for design this frontend interface and the backend also. Through this report, will shows the design and development process.

- UI design of the website is simple, and all the pages are more easily accessible through the home page navigation bar.
- There is a contact us and location on the footer.
- And especially we have used a simple login form, so it is easy to anybody to use it.
- The website is responsive so it can be viewed in any device.

## **ADVANTAGES OF WEBSITE**

Having our own hotel website can be one of best marketing strategies.

1. Source of information
2. Brand awareness
3. Increase Direct booking and sale
4. To better showcase your hotel
5. To serve group travelers
6. Stay competitive
7. Online marketing tools

The customer can easily and truly get the information.

Information about the products available in web applications is varied. Web applications contain information about accommodations, facilities, function, dining. The customer must compare this information with other hotels websites. With this web application we can get all the information easily and truthfully.

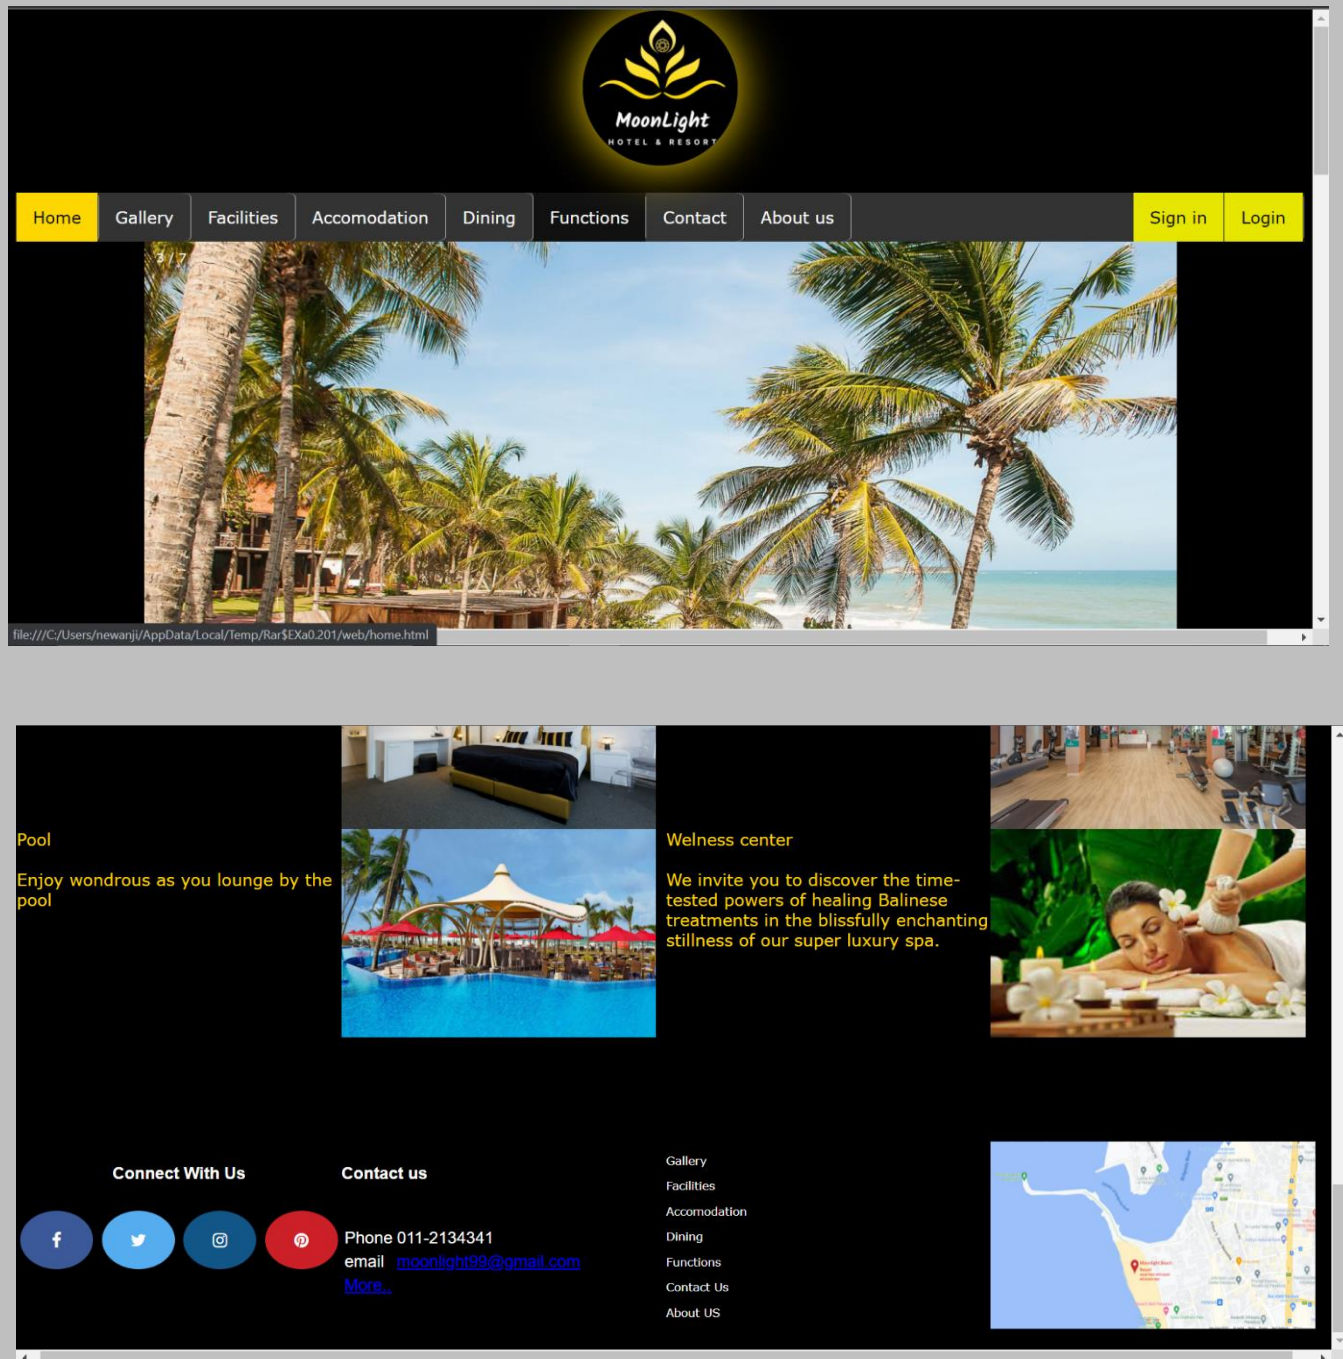

Direct Booking.

What is comes down to is, an independent website can generate more awareness, dive more traffic, and deliver more direct booking.

Brand Establishment.

One of the advantages of having a website is that it helps us to build our brand. A lot of people often search for hotels that have their own website so that they can directly contact us.
